Experience

Full stack web development bootcamp | Dev Academy Aotearoa

Jan - May 2023

- A full-immersion software development bootcamp that closely represents working in a modern, agile development team.
- The course taught the development stack (including Javascript, HTML, CSS, React, testing and databases) as well as people-focused skills.
- We worked on agile methodologies and teamwork, developing functioning applications in teams projects every week.
- For the final project, I made a home renovation organization site called Nook. This was a solo project where I worked on the initial design right through to the development using React, Redux, Express and Knex.

Communications Assistant | Pan-Asian Screen Collective

Aug 2021 - Aug 2022

- Designed content across all social media channels and email marketing campaigns.
- Increased Instagram followers by 314% over 12 months
- Increased EDM open rates from 35% to 50% over 12 months
- Analysed trends in user interactions and planned digital campaigns accordingly to build the online community.

Assistant Accountant | 2degrees

Nov 2019 - Jun 2021

- Performed bank reconciliations and transactional reporting across Mobile and Broadband divisions.
- Reported monthly cashflow compared to trend and forecast in collaboration with the Treasury team.
- Led the functional design and testing of the Cash Management module in the new ERP system, Dynamics 365.

Accounts Payable Officer | 2degrees

Dec 2018 - Oct 2019

Various accounting roles

2014 - 2018
