Experience

Full stack web development bootcamp | Dev Academy Aotearoa

Jan - May 2023

- Working on weekly team projects, I utilised **agile methodologies** to optimise **teamwork** through **communication** and coordination, fostering trust, constructive feedback, and peer programming.
- Some of the technologies I used include **React**, **Redux**, **Typescript**, **Javascript**, **SQLite** and **Knex** to develop **Full Stack** applications
- For the final project, I made a home renovation organization site called Nook. This was a solo project where I worked on the initial design right through to the development. Check it out on my portfolio here: iam-spark.com/nook

Communications Assistant | Pan-Asian Screen Collective

Aug 2021 - Aug 2022

- Designed content across all social media channels and email marketing campaigns.
- Increased Instagram followers by 314% over 12 months
- Increased EDM open rates from 35% to 50% over 12 months
- Analysed trends in user interactions and planned digital campaigns accordingly to build the online community.

Assistant Accountant | 2degrees

Nov 2019 - Jun 2021

- Performed bank reconciliations and transactional reporting across Mobile and Broadband divisions.
- Reported monthly cashflow compared to trend and forecast in collaboration with the Treasury team.
- Led the functional design and testing of the Cash Management module in the new ERP system, Dynamics 365.

Various accounting roles

2014 - 2018
